The House That Bargains Built!

Grand Leader methods and Grand Leader prices are the master-builders that have made this big business. Our methods take care that no misrepresentations are made—either in our merchandise, our statements or our advertising. They also see that you get the proper store—courtesy—and that your shopping—comfort is well looked after. These and many minor points are the direct results of our methods—and to which much of our success is due—for in business, "luck" is almost entirely eliminated.

Our prices of course, are the real foundation of Grand Leader strength. Not in simple "cheapness"—but in offering better merchandise at the same price—or the same article at a less price than any other local store. "Cheap" goods, even if at a cheap price, will not hold your business, for the remembrance of unworthy merchandise remains with you long after the price you paid for it has been forgotten.

Good, reliable, up-to-date styles and patterns at low prices for the quality brings our patrons past every other store to the Grand Leader. Our methods please and retain their custom. If you are not trading here—the fault is not ours—we're willing and anxious.
